

Fostering payment amounts 1 April 2024 to 31 March 2025

Standard fostering payments

Connected person foster carers (a relative, friend or other person connected with a child) receive the age-related maintenance only, unless the required training is undertaken. All other Kent foster carers are required to undertake the training and therefore receive both reward and maintenance elements.

Standard parent and child payments cover maintenance and reward for a parent and child.

Enhanced parent and child payments cover maintenance and reward for a child and maintenance and twice reward for a parent.

Solo and complex fostering payments

Solo and complex payments are paid to foster carers who are looking after children or young people who cannot be placed alongside other children or who have higher level risk taking behaviours requiring more specialist interventions.

All solo and complex payments relate to the child's needs and not the foster carer's skills or experience. Payments will be reviewed every 3 months by a panel.

Disabled Children's fostering payments

The figures for disability foster care are based on the assessed level of the child's needs, agreed at funding panel and are reviewed once a year.

Foster carers of disabled children are also eligible for an additional payment - either standard or enhanced. This is also based on the assessed level of the child's needs and reviewed once a year.

There are also a small number of children whose level of complex needs place additional and exceptional demands on their foster carers and in these circumstances a further disability placement supplement would be paid which is equivalent in amount to the age-related reward element of the fostering fee (this is not included in the totals below).

Disabled children's short break fostering payments

Short breaks are short term placements, such as evenings or weekends, that allow parents or carers of disabled children to take a break.

Short breaks fostering payments are calculated per night.

The figures for short breaks foster care are based on the assessed level of the child's needs, agreed at funding panel and are reviewed once a year. The reward element is paid at the higher rate and is not dependent on the age of the child.

Short breaks foster carers are also eligible for an additional payment - either standard or enhanced. This is also based on the assessed level of the child's needs and reviewed once a year.
